## **PushSave Coupon books (all online, no in-person selling)**

Remember those coupon books of old? You'd sell them to your family and friends, they would get great coupons to restaurants, attractions, etc. while you earned money for your school or team? RVC has partnered with PushSave.com so that you can still do that but it's even easier now! Promote it through your social media/network. The buyer can customize their "book" for the coupons they want! Email [director@rvc.net](mailto:director@rvc.net) if you'd like more information.

## **Restaurants**

Many restaurants offer the opportunity to bring your team, group and friends to their establishment on a designated night. A percentage of the restaurant's revenue will then be returned to the group. Below is a list of potential restaurants. Walking in and talking to a manager is always the best way to start.

If you have a favorite restaurant talk to the manager. They might be willing to work with you. Typically, restaurants will give a group between 10%-20% on the night.
